HYDROPHOBIA IS CAUSE OF ADAMS COUNTIAN'S DEATH

Ohio Man Dies in West Union Jail With Symptoms Usually Shown In Case of Rabies.

West Union, Ohio, August 28.—Robert Windle, aged 50 years, a tenant on the John H. Shupert farm near Seaman, died at the county jail at eight o'clock Wednesday night after a two days' illness there with a malady the nature of which has baffled the attending physicians.

However, there is strong belief that the man died with an attack of hydrophobia, as he developed the symptoms usually shown in cases of the rabies.

In support of this theory, it is said that Windle was bitten by one of his own dogs about eight years ago while residing north of West Union. The dog is thought to have been mad and later was killed. In another case recited, it is said that two years later, during a dispute as to whether a sick cow had the rabies, he put some of the saliva from the animal's mouth and spread it over a sore on his hand.

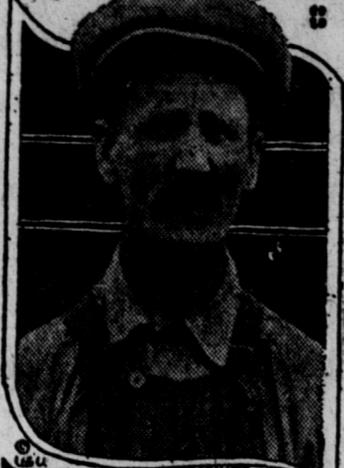

Windle, who had been showing signs of insanity for some time, and was laboring under the hallucination that he had received \$3,500 from the U. S. government and that some one had robbed him of the money. He became violent and threatening toward his wife and children, and on Monday morning he was brought to West Union by Mr. Shupert, Delbert Daulton and a brother, James Windle, of Columbus, who was at the Windle home on a visit.

An affidavit in lunacy was filed in the probate court, and at an examination before Judge Stephenson, he was pronounced to be of unsound mind by examining physicians and was ordered confined in the Athens asylum.

Early Tuesday morning as Sheriff Pettit was bringing the patient out from the jail to place him in an automobile to start on the trip to Athens, he became violent and went into convulsions, slobbers running from his mouth. He lapsed into an unconscious state, but roused up about noon and was eating some dinner, when he suddenly took another attack and from that time on to his death Wednesday night, the man was almost continually in a state of coma. During his moments of consciousness his dread of water was one of the symptoms of supposed rabid condition.

MADE HAY FIRST, FORTUNE LATER

CLAUDE CROWE IS KILLED IN WRECK NEAR RICHMOND

Former Maysville Man Is One of Five To Be Killed In L. & N. Rail Mishaps Friday.

Five men were killed and two injured, one perhaps fatally, in accidents on the Kentucky Division of the Louisville and Nashville railroad early Friday.

Two of the victims were killed when a southbound freight train was derailed in a tunnel near Mullings, Rockcastle County, thirty miles south of Richmond. The other three lost their lives when a rescue train, made up at Paris, struck four pedestrians on a trestle near Elkin, Clark county.

A carload of horses, just back of the freight locomotive, were killed. A car of explosives in the derailed train failed to detonate.

The dead are:

Engineer Claude A. Crowe, Paris, Ky.

Fireman Robert Reynolds, Paris, Ky.

Carlos Reed, 23, Clay county.

Wilson Martin, 24, Clay county.

Russell Morgan, 20, Clay county,

who died in a Richmond hospital after the trestle accident.

The injured are:

Russell McQueen, 20, Clay county;

fractured skull, loss of leg above knee and broken ribs.

Flagman Bennett Mullins, Livingstone, Ky., serious injuries.

The freight train was running in two sections, the first of which was derailed in the tunnel. The cause of the accident has not been ascertained.

The engineer and fireman were killed instantly. Flagman Mullins was slightly injured.

Superintendent J. A. Morrison and Trainmaster Joseph Grosch were on the rescue train made up at Paris. According to them, the four young men from Clay county were on the trestle and a sharp curve prevented the engineer from seeing them until it was too late.

Read and Martin were struck by the wrecker and killed instantly. Morgan and McQueen fell from the trestle. The former died at a local hospital and the latter is not expected to recover.

Engineer Crowe, who was killed by the derailment of the freight, was about 30 years of age, and is survived by his widow and two children. A handsome new residence he was building at Paris is about half completed. His body was taken to Carlisle, his former home, for burial. Mr. Crowe lived for several years in Maysville and had many warm friends here.

Fireman Robert Reynolds, whose parents live at Bond, was also a resident of Paris, and it is said was engaged to be married to a young Paris girl, the wedding to take place in September. His body was sent to Bond for burial. Young Mullins, who was injured, was removed to the hospital at London, Ky. The train was in charge of Conductor L. P. Fronk.

Traffic over the road was only slightly impaired, as passenger trains were detoured via Rowland.

MORE SUBPOENAS ISSUED FOR COAL DEALERS.

It was stated yesterday that four-score subpoenas were issued for coal corporations and dealers with headquarters at Lexington, Middlesboro and Pineville, Ky., to bring their business records before the special Federal grand jury at Covington, which is investigating allegations of coal profiteering. It the absence of District Attorney Thomas D. Slattery, Assistant District Attorney Charles Finnell is directing the work of getting out the summons papers.

ALL PARTIES RELEASED.

A jury in police court late Friday found Roy Brown, Sixth ward pool room manager, not guilty of a charge of breach of the peace and immediately thereafter Judge Whitaker dismissed the warrants against Mr. and Mrs. Thomas Valentine charging them with the same offense.

HEALTH OFFICER WILL MOVE AT ONCE.

Dr. Frank Reynolds, of Carlisle, who was recently elected full time Health Officer of Mason county and who begins his new duties on the first of September, has rented the Hoesch residence on Edgemont and will move here with his family at once.

CONGRESSMAN HERE.

Hon. W. J. Fields, of Olive Hill, Congressman from this district, is here today mixing with the fair crowds and fixing up his fences for the November fight.

The Conrad property bought by Mr. Thomas Goodwin was sold through Mrs. E. L. Manchester, local real estate agent.

MANY BOYS IN RUTH'S SHOES

At the beginning of the season a New York shoe firm announced that for every home run Babe made they would give him a pair of shoes. Babe might be hard on shoes but thirty-three pairs is more than he needs so he has given the boys of a New York orphanage his claim to the shoes.

Yes, he has a heart for orphan boys as he was in an orphanage himself one time.

CLOUDBURST DOES GREAT DAMAGE AT CARLISLE

DAMAGE DONE IN AND AROUND CARLISLE IN BIG STORM LAST NIGHT IS ESTIMATED AT NEAR \$500,000.

One of the most disastrous storms to visit this section of Kentucky in years was that which visited the vicinity of Carlisle last night and early this morning. Reports reaching here today place the damage done at near \$500,000, and while there has been no loss of human life reported, the damage to live stock and growing crops is enormous.

Several local people have been talking over the telephone to relatives in Carlisle and they report the damage beyond explanation. Houses have been washed from their foundations, garages have been washed away and acres of growing tobacco and corn completely ruined. Between two and three hundred thousand pounds of old tobacco stored in looseleaf tobacco warehouses in Carlisle was ruined by the floods. The streets of Carlisle have been torn up and bridges washed away.

The L. & N. Railroad track from Pleasant Valley to above Carlisle, a distance of more than eight miles, is badly washed that trains cannot travel it and the morning train from this place was compelled to back in after reaching Pleasant Valley, being unable to continue. Carlisle is completely cut off by railroad and pike. Persons on the morning train report the damage in and around Pleasant Valley most serious.

BOY FIRES DYNAMITE CAP; FINGERS ARE BLOWN OFF.

Carlisle, Ky., Aug. 28.—Cecil Marion Mann, six year old son of F. M. Mann, of this county narrowly escaped fatal injuries from an explosion, which occurred when he lighted a match to a dynamite cap. Three fingers and the thumb on the left hand were almost blown off and he was cut on the head and about the body.

LORENA D. POOR, SR., AGED 75 YEARS, OF ABERDEEN, AND MRS. Mauda Collins, aged 47, of Ribolt, Lewis county, were married at the County Clerk's office here this morning by Acting County Judge Fred W. Bauer. It was the third wedding for the groom and the second for the bride.

Piano and organ for sale. At J. T. Kackley & Co.

28Aug21

WATER CASES TO BE TRIED DURING SEPTEMBER TERM

Secretary of State Board of Health Rere Today Making Arrangements For Trial of Water Cases During September Term of Court.

Dr. A. T. McCormack, Secretary of the Kentucky State Board of Health, was in Maysville today in conference with the board's lawyers and lawyers representing the Maysville Water Company in regard to the interests returned at the last session of the Mason county grand jury against the Maysville Water Company and the City of Maysville for furnishing the citizens of this city water unfit for human consumption.

Dr. McCormack left about noon for Louisville by auto. He stated before leaving that it appeared that an agreed case could be submitted to the court during the first week of the September term of the Mason Circuit Court and that the case could be carried directly to the Kentucky Court of Appeals for a final decision. He expressed the State Board's intention to carry the case through the court to get a test case of the Maysville matter.

Dr. McCormack was very much pleased with the improvements at the water company's plant and stated that he was very much pleased to note that the water company was making an effort to serve the citizens and to give them better water. He stated, however, that the water which was served the public through the mains this morning was unfit for human consumption.

While in Maysville Dr. McCormack and Miss Marian Williamson, State Supervising Nurse, who accompanied him here, took up the matter of procuring a successor to Miss Casey, County Health Nurse, whose term here expires on next Wednesday. Neither Dr. McCormack or Miss Williamson could announce who Miss Casey's successor would be for certain but they both said she would be a "high type and highly experienced nurse."

SINCE THE ORGANIZATION OF THE STATE AGENTS' ASSOCIATION, MR. SULSER HAS BEEN VERY ACTIVE IN THE ASSOCIATION'S WELFARE AND EVER SINCE ITS ORGANIZATION HAS BEEN ONE OF THE MOST CONSULTED ABOUT ITS AFFAIRS.

GILL-COMBESS.

Miss Nellie Gill, aged 28, and Mr. James A. Combess, aged 32, both of this county, were married this morning in the County Clerk's office by Acting County Judge Fred W. Bauer.

Mr. A. F. Curran returned last night from a business trip to Frankfort, Lexington and Cincinnati.

TAUGHT HARDING TO "STICK" TYPE

M. L. Miller, 76 years old and still a composition on Senator Harding's newspaper, the Marion Star. He has been employed by the Republican Presidential candidate for 26 years and taught Harding to set type.

At about 11 o'clock this morning a great crowd of people estimated by some at about 300 fell through a part of the amphitheater at the German town Fair grounds to the ground, a distance of about seven feet and it is nothing short of miraculous that no more than three were badly injured.

The Boys' Band, because of the size of the organization, has been playing in a part of the amphitheater and about the band each day great crowds have been gathering to watch the youthful musicians. The people had been warned not to crowd about the band but nothing could keep the crowds back and this morning, there being an unusually large crowd on the grounds, the crowd about the band was larger than ever. There was evidently a weak spot in the structure at this place and without warning, it gave way and let the crowd down onto the ground.

The space occupied by the band did not give way and not a member of the band was scratched. Among those who fell through to the ground, however, quite a number were scratched and bruised in the big crash. Only three persons were seriously injured. A Miss Haley, 17 years of age, who lives near Brooksville in Bracken county, suffered a broken leg. Miss Louise Thomas, of Germantown, was crushed in the side, and a man, whose name could not be learned, suffered a broken leg.

Mindful of the feelings of the band boys' parents when they should learn that a part of the amphitheater had fallen, Col. J. Barbour Russell, immediately after the accident, telephoned to the Ledger office and asked that a bulletin be posted on the accident telling that none of the musicians had been injured.

ALLEGED PICKPOCKETS HELD TO GRAND JURY.

The three colored men arrested here Thursday night on charges of picking pockets on Germantown fair grounds, were held to the September grand jury by Police Judge John L. Whitaker Friday afternoon. They were offered bail in the sum of \$300 which they were unable to give and were returned to jail to await the meeting of the grand jury.

OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

RATES IN ADVANCE: By Carrier or Mail, \$3 per year; \$1.75, Six Months; Cents per Month.

For President.

For Vice President.

MONEY AND MARKETS.

Credit Situation.
The gradual improvement of transaction which has been effected during recent weeks has permitted a somewhat more rapid movement of grain than had been anticipated. Consequently the holdover from the preceding year has in good measure been cared for and the new crop-moving season has begun on schedule and under more favorable conditions than seemed possible a month ago. It is reported from some sections of the middle west that bank loans to finance the actual harvesting of the new crops are being reduced at an earlier date than is usually the case. While the credit requirements of the new movement will not reach maximum volume for some time to come, and while easier credit cannot be expected until the peak of the movement has passed, the situation has improved sufficiently to make reasonably clear that the autumn agricultural demands for credit will not be in excess of the ability of the banks to supply.

There are indications also that many commercial borrowers, in response to expectations of a credit stringency during the fall which have prevailed for many months, are at least to some extent anticipated their autumn requirements for credit. This factor, coupled with the continued tendency toward reduced volume of business and lower prices for many commodities, may be expected to relieve the pressure of commercial and industrial credit requirements. It must be recognized however, that some little time will be necessary for this relief to make itself manifest, because of the interval which must elapse before a new policy in business brings results.

Money Rates.

Rates in the New York money market have ruled steady throughout the period of July 16-August 15. Commercial borrowings in the open market have continued at a firm level of 8 percent. Call money rates, which ruled at 9 percent at the beginning of the period, gradually declined to about 6 percent, at its close. This decline has reflected, not so much of funds available for stock exchange employment, but the reduced volume of requirements resulting from continued stock liquidation.

Securities.

The bond market has experienced a real measure of improvement during the period under review. The absorption by investors of corporate and particularly of railroad securities has been good and has extended to bonds of the second and third grade. The general trend of prices, moreover, has been moderately upward.

This improvement in tone is a reflection of the more definite and improved position of the railroads which will result from the settlement of the railroad wage question and the allowances of substantially increased freight and passenger rates by the Interstate Commerce Commission. It reflects, also, a feeling that the readjustment of business and prices to a more normal level is proceeding satisfactorily and that that process will ultimately release to the investment market a more adequate supply of credit. While these factors have occasioned a moderate upward trend of bond prices, the tremendous volume of new financing which awaits a favorable market constitutes a retarding element which may occasion repeated fluctuations in the trend. It must be expected that at each new level of prices, outstanding bond issues will meet with the competition of new flotations.

General Conditions.

Although superficially not much change is evident in the general business situation from that of July 15, nevertheless underlying intrinsic conditions are slowly and steadily making for a sounder situation. An important

element is the determination of business interests to carry into effect a new policy of conducting their affairs on sane and conservative lines, looking toward stability and continuance in business rather than to the policy which until recently prevailed of doing as much business as possible at high prices on a basis of excited public buying with resulting abnormal profits.

Wholesale Commodity Market.

With few exceptions, the wholesale markets are now in a condition of inactivity not paralleled since the period of uncertainty which followed the armistice. Normally, this is the dullest season of the year and the condition of stagnation is partially to be ascribed to that fact. To a far greater extent, however, it is the result of a widespread realization which has at last become general throughout the business community, that the present downward price movement is not a temporary tendency but a decline toward a new level applicable to post-war conditions, a level which can be found only by cautious experimentation in the market. It is possible that in some commodities this new level has already been reached.

Railroad Rates.

The necessity for an advance in railroad rates had long been beyond argument, but even among those who regarded this advance as necessary there had been a considerable doubt as to the effect upon prices of products which move on a tonnage basis. Temporarily the effect of these rate advances will be reflected in prices of bulky articles, although there should be little or no reflection in prices of articles the value of which is relatively high in relation to weight. Certain offsetting circumstances are not to be ignored, however. As long as the railroads were unable adequately to expand their facilities to handle the freight offered to them, business in all lines suffered under a most serious handicap because of hampered transportation. In some cases this has been reflected violently in prices. If the rate advances enable the railroads to build up their plant and equipment sufficiently to handle freight, expansion of production in all lines will become possible, and the friction involved in the present process of distribution will be eliminated. It will take a considerable time to reach this result, but when it is attained the final effect of increased rates will be to lower prices.

BETTE R BABIES.

The crusade for better babies has spread from coast to coast, and taken firm hold of American Mothers. Few women realize how much the ill health of the mother influences the unborn child, both physically and mentally. Women who suffer from mysterious pains, backache, nervousness, mental depression, headaches, etc., should rely on Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, which for nearly forty years has been the standard remedy for these ailments.

SPINACH SHOULD BE SOWN NOW.

By mulching with straw late spinach sown now can be carried over through the winter. A variety that will grow throughout the summer is the New Zealand and it is a good variety. Seed sown now should be allowed to develop as much as possible before its straw mulch is applied. If the plants become large remove some of them so that a crowded condition will be prevented among the rest and they will have a chance to become better established during the winter.

Next to grape wine it is said that Japanese rice wine is the oldest alcoholic beverage known to man, its use in Japan dating back over 2,000 years.

ONE WHO UNDERSTANDS

I am speaking as one who has counted the contents of the pay envelope from the viewpoint of the earner as well as the employer.—From Harding's speech of acceptance.

MAYSVILLE'S CHURCHES

Where the Religious Exercises Will Be Held on the Sabbath.

Christian Science services Sunday morning at 11 o'clock in G. A. R. Hall, Cox Building.

First M. E. Church, South.

Sunday school at 9:30 a.m. Morning worship begins at 10:45. Preaching by the pastor. This will be the last service before conference. Union evening service at Presbyterian church, preaching by Rev. John A. Davis. W. D. WELBURN, Pastor.

Church of the Nativity.

During the interium the church is without a Rector, services will be held by lay-readers. A full attendance of the congregation is requested. The public cordially invited. Sunday school at 9:30; morning prayer 10:45. WM. H. COX, Senior Warden.

Christian Church.

Bible school 9:30 a.m.; Communion 10:30 a.m. Preaching by the minister 11 a.m. No evening service at this church on account of union meeting at First Presbyterian church. Rev. John A. Davis of the Baptist church will be the preacher.

Hollins Church.

Sunday school at 2 p.m., Mrs. H. H. Bolender, Superintendent. Preaching service at 3 p.m. and 7:30 p.m. We are expecting Rev. Wm. Duncan, our District Superintendent, with us for Sunday services. Let everyone feel their welcome, come and enjoy the services. H. H. BOLENDER, Pastor. Third Street M. E. Church.

The "Little Brick" Church.

Superintendent Dawson and assistant Superintendent Melton certainly deserve the gratitude of the "Little Brick" Sunday school for their splendid entertainment Wednesday night. They will show their appreciation by all being present at 9:30 a.m. with well learned lessons, and bright, shin-

ing faces, ready to learn what God has to tell them about heavenly wisdom.

At 10:45 the pastor will have something to say, and at 7:30 p.m. he will speak again from God's Holy Book. Come and be blessed.

J. J. DICKEY, Minister.

Sunday school at 9:30 a.m. There will be no morning church service. For this reason all are urged to be in the Sunday school. The pastor is at Marion, Indiana, attending his home campmeeting. His place with the Brotherhood class will be taken by an efficient teacher and all members are urged to be present.

At 7:30 p.m. the stereopticon lecture "Hymns of the Continents" will be presented. Miss Hurd giving the lecture and Messrs. Spence and Nau man presenting the pictures. If you are fond of good pictures and a highly interesting lecture come and see and hear this one. You will be made welcome.

ONE YEAR AGO TODAY.

Sixty thousand persons welcomed Prince of Wales in Ottawa.

France agreed to pay the United States \$400,000,000 for unused army property.

Ideal for Youth Grape-Nuts

A ready-cooked cereal that needs no added sweetening. Children love the rich flavor of this nourishing food.

TODAY'S BIRTHDAYS.

STATE REGENT DECLARES

WAR ON DOVE HUNTERS.

Bellamy Storer, former United States ambassador to Austria-Hungary, born in Cincinnati, 33 years ago today.

Dr. Elmer E. Brown, Chancellor of New York University, born in Chautauqua county, N. Y., 59 years ago today.

Rt. Rev. Henry Althoff, Catholic bishop of Belleville, Ill., born at Avison, Ill., 47 years ago today.

Robert F. Roth, outfielder of the Washington American league baseball team, born in Chicago, 28 years ago today.

Mlle. Lenglen, the young French girl who has won the British tennis championship, keeps fit, she says, by going to bed early, being careful what she eats, and doing Swedish exercises for fifteen minutes night and morning.

Frankfort, Ky., Aug. 27. — Having been informed that hunters throughout the state are killing doves, R. S. Tuttle, executive agent of the Game and Fish Commission, today sent instructions to the game wardens to make arrests and gather evidence to prosecute offenders. Mr. Tuttle today appointed J. S. Fritz, game warden of the Second District, with Hopkinsville as headquarters, and J. R. Gunnels, Madrid Bend, game warden of Fulton county.

Many thousands of women employed in industries in California are receiving the benefits of the minimum wage scale of \$16 a week which has just been put into effect by the Industrial Welfare Commission.

On an average the farm horse works only 100 days out of the 365, yet he consumes just the same regardless of whether he is working or idle. While the truck or tractor "eats" only when it works and involves no expense when idle other than the interest on money invested which is small indeed compared to the value of the feed consumed by the number of horses which it is able to surplant.

It has been generally accepted that a few horses will always be needed for certain classes of farm work. This has been disproven by the fact that there are several hundred farms in this country today which are completely motorized. These motorized farms have not a single head of stock upon them with the exception of one or two cows to furnish milk and butter.

The comparative figures furnished by one of these farmers who has replaced ten teams with two tractors and one truck shows a saving of \$2,678 a year by motorizing.

The cost of operating and maintaining the horse drawn apparatus for one year is set down as follows:

Feed for 20 horses \$3,650.00

Losses 730.00

6% int. on \$3000 investment 180.00

Wages of 10 teamsters for season's work 2,000.00

Wear and tear (horse equipment, etc.) 500.00

Total expense \$7,060.00

Deduct Fertilizer credit 100.00

Actual cost operating for year \$6960.00

The cost of operating two tractors and one pneumatic-tired truck for the same period was \$4,282.00. This amount is fixed by the following items.

Wages of regular driver \$1200.00

Wages of Extra drivers:

1 driver working 2½ months 200.00

2 drivers working 3 months 500.00

Parts for repairs 200.00

Estimated Int. on Investment 414.00

Fuel and Oil 768.00

Depreciation 1,000.00

Total expense \$4,282.00

The horse as a source of power to the farmer is about as efficient as a tread-mill would be to the manufacturer and when the farmer adopts modern business methods and finds out what it is actually costing him to produce his crops and why he is not making more money, he will only be a short time until he disposes of his

TRACTOR AND TRUCK OPERATION IS THE CHEAPER

Official Figures Show that Tractors and Trucks Can Be Operated on Farm Cheaper than Horses.

Recently, at Washington, a careful investigation was made to determine the relative cost and efficiency of farming with tractors and truck as compared with horses. From the results of this investigation it will only be a question of time until power farming will practically do away with the horse. If the cost of producing the crops means anything to the farmer.

The horse is the most inefficient power until we have today. He consumes 1/2 feed in the course of a year the equivalent of the yield of five acres or 1/4 of what he is able to produce. Government figures compiled before the war show that it costs \$150 a year to keep a horse and according to present prices of feed stuff this figure should be double now. This report also shows that forty per cent of the farmers total work expenses are represented by the keep and maintenance of his horses.

On an average the farm horse works only 100 days out of the 365, yet he consumes just the same regardless of whether he is working or idle. While the truck or tractor "eats" only when it works and involves no expense when idle other than the interest on money invested which is small indeed compared to the value of the feed consumed by the number of horses which it is able to surplant.

It has been generally accepted that a few horses will always be needed for certain classes of farm work. This has been disproven by the fact that there are several hundred farms in this country today which are completely motorized. These motorized farms have not a single head of stock upon them with the exception of one or two cows to furnish milk and butter.

The comparative figures furnished by one of these farmers who has replaced ten teams with two tractors and one truck shows a saving of \$2,678 a year by motorizing.

The cost of operating and maintaining the horse drawn apparatus for one year is set down as follows:

Feed for 20 horses \$3,650.00

Losses 730.00

6% int. on \$3000 investment 180.00

Wages of 10 teamsters for season's work 2,000.00

Wear and tear (horse equipment, etc.) 500.00

Total expense \$7,060.00

Deduct Fertilizer credit 100.00

Actual cost operating for year \$6960.00

The cost of operating two tractors and one pneumatic-tired truck for the same period was \$4,282.00. This amount is fixed by the following items.

Wages of regular driver \$1200.00

Wages of Extra drivers:

1 driver working 2½ months 200.00

2 drivers working 3 months 500.00

Parts for repairs 200.00

Estimated Int. on Investment 414.00

Fuel and Oil 768.00

Depreciation 1,000.00

Total expense \$4,282.00

The horse as a source of power to the farmer is about as efficient as a tread-mill would be to the manufacturer and when the farmer adopts modern business methods and finds out what it is actually costing him to produce his crops and why he is not making more money, he will only be a short time until he disposes of his

horses and replaces them with more economical and dependable motor equipment.

The Department of Agriculture estimates that there are 2,500,000 farmers in this country which can be profitably motorized. State registrations show there are less than 80,000 motor trucks own by farmers. It is because of this fact that we are on the verge of a serious food shortage today, for with tractors and trucks three men can do the work of ten and at less cost as shown by the above figures, thus solving the problem of the scarcity of farm labor at the same time overcoming the transportation difficulties.

WILLIAMSON WARM

AIR FURNACES.

We have become the local agents for the famous Williamson Warm Air Pipeless Furnaces, the latest improved furnace for homes, either coal or gas burners.

One of these splendid furnaces will be installed in the beautiful Joerger home in West Second street within a few days and a complete furnace will be installed at our store within the next ten days for your inspection.

If you are contemplating the installation of a furnace for this winter, let us talk to you about the Williamson, formerly called "The Peck-Williams," and built at Cincinnati.

We also have a second-hand pipe furnace we will sell cheap if sold at once.

See us about your home heating arrangements for next winter.

CROWD THREATENED TO INJURE DAYTON MAN

Forty-two Year Old Man Charged With Assaulding Child Is Rushed To Newark.

In order to prevent violence at the hands of angry residents of Dayton, the "M. T. Parker Special" is the ideal pen for the student as well as for the grown folks. It is a medium size, safety, self-filler, the latest improved style—writes smoothly always, never leaks, and is guaranteed to give three years' satisfactory service.

In order to introduce this wonderful new pen into ever locality we make this wonderful offer: Simply send us your name and address—no money—and we will send the pen by parcel post, prepaid. When it comes, merely deposit 23 cents with the postman to help pay for advertising, boxing, etc. If you are not satisfied, mail it back to us within 5 days and we will return your deposit, but if you decide to keep it, it's yours—there's nothing more to pay. This offer applies to everyone, both students and grown folks, but there will only be a limited number given away on this plan.

Send your name today (a postal will do) so as to be sure and get one. Address: The M. T. Parker Co., Dept. B, 231 Haywood St. Asheville, N. C. Advt 26 Aug 3.

MESERVE RELEASED.

Charles Meserve, 35, a homeless tramp who worked for William Morrison for a week was charged with attacking a young girl at Falmouth, Ky., June 18, and lodged in jail, has been released. He had no trouble in showing an alibi. Enraged citizens wanted his life when the small child said that he was the guilty one. Charles Courtney, the big sheriff with a big soul, made a trip to Adams county at his own expense to hasten the release of the unfortunate man. — Manchester Signal.

FIRST PRESBYTERIAN CHURCH.

Sunday school at 9:30. All members of the church are most cordially invited and all members of the Sunday school are expected. No preaching service in the morning. The union service will be held in this church at 7:30 p.m. The Rev. J. A. Davis of the First Baptist church will preach. The service is most cordially invited.

TEACHERS' INSTITUTE OPENS MONDAY MORNING.

The Mason County Teachers' Institute opens at 9:30 o'clock Monday morning at the Third Street M. E. church, opposite the court house, and every school teacher in Mason county is expected to be in attendance during the five days the institute will be in session.

PREACHING AT BAPTIST CHURCH SUNDAY MORNING.

Rev. J. A. Davis, pastor of the First Baptist church, has returned from his vacation and will preach at this church Sunday morning at 10:45 o'clock. Other services will be held as usual. The public is cordially invited to attend all services.

ECZEMA!

Money back without question if HUNTS' Salve fails in the treatment of ECZEMA, RINGWORM, TETTER or other skin diseases. Try a 75 cent box at our risk.

AT OPERA HOUSE

Tonight Wallace Reid In "The Lottery Man" "Dull Care" Comedy

MAYSVILLE GIRL ENTERTAINS INDIANA COUNTRY CLUB.

In its account of an entertainment given by the New Castle, Ind., County Club, The New Castle Daily Times says:

"The third number was a solo dance, 'Fluffy Ruffles.' This was a special feature of the program, danced by Miss Virginia Watkins, of Maysville. This was one of the most enjoyable numbers, as Miss Watkins danced in such a charming manner, with so much ease and grace that no one would have tried looking at her. She attends the Schuster-Martin School in Walnut Hills, Cincinnati, and although she had but few lessons and is very young, she is a wonderful little dancer."

VISITING COLORED PREACHERS TO SPEAK.

The pulpits in the local colored churches will be supplied tomorrow with visiting ministers, here attending the Methodist Conference. Rev. Hayden, pastor of the local Methodist church, announces that Rev. J. M. White will preach at 11 o'clock and Rev. H. M. Marbely at 7:30 o'clock at the Bethel Baptist church. Rev. W. H. Williams preaches at 11 o'clock and Rev. I. J. Penn, Jr., at 7:30 o'clock at Scott's M. E. church and Rev. T. M. Marbely preaches at 3 p.m. at Scott's church.

Aug 17-21-24-28

LOCAL MEN HELD AT MANCHESTER.

Reports have been received here that George Mitchell, Jr., operator of a local soft drink place, and Kemp Ball, operator of a local lunch room, were arrested in Manchester, Ohio, yesterday on charges of dealing in intoxicants. It is charged that Mitchell and Ball had received a shipment of ginger at Manchester, which they were planning to bring to Maysville when they were arrested by the Manchester marshal.

BOLSHEVIKI MOWED DOWN BY POLES.

Warsaw, August 28. — Polish artillery has decimated the principal column of retreating Soviet forces on the northeastern front, catching the Bolsheviks at short range, according to an official statement issued here. More than 600 men, including two general staff officers and eleven line officers, have been captured. Among the killed was the commander of the 57th Bolshevik division and his chief-of-staff.

BODY TO BE RETURNED HERE.

Officials of the local post American Legion have been advised that the body of Private Christopher Russell Dunbar, of this city, who died while with the American Expeditionary forces in Germany, will be returned here for burial.
